One Thousand Dollars will be forfeited to any Charity if it is proved that any testimonial of Brown's Iron Bitters is not Genuine or was paid for! Important Notice to You!! "We take BROWN'S IRON BITTERS because it renews our Strength and Energy, increases Vitality (that mainspring of life) and supplies that Health which is lost by Sickness, Malaria, Overwork, Constitutional Weakness, Old Age, Debility and Excesses. We take Brown's Iron Bitters because it is the only iron medicine that will never cause Constipation or injure the Teeth." This is the Testimony of Doctors, Clergymen, Merchants, Professional Men and Ladies of every standing. Perfect Health for Ten Years!

Chattanooga, Tenn., April 23, 1894.

In 1884 I was in Macon, Ga., and became so weak that I could scarcely stand up, and commenced to ache throughout my whole body. I procured a dollar bottle of Brown's Iron litters and began using it. In less than a week I was back at my work feeling as if nothing had happened, and stronger than before. Since that time! I have used from one to three bottles every spring, except last spring, when, I am sorry to say, I neglected to take any, in consequence of which in August I lost one week from business, the first I had lost since 1884. I must say to suffering humanity to keep a bottle of Brown's Iron Bitters constantly in the house, to keep down large and uncalled for bils for medical service. For ten years I have taken Brown's Iron Bitters, and the result is that I have never had a doctor's bill to pay, except the \$4.00 last August.

Yours very respectfully, ALEXANDER GOODE. Perfect Health for Ten Years! It's Brown's Iron Bitters You need! IF YOU ARE FEELING UNWELL, OUT OF SORTS, GET A TRIAL BOTTLE. Admirable for Weak Ladies and Puny Children.

DIABOLICAL NEGRO CONSPIRACY. It Is Discove.ed in Time and Its Leader Is Lynched.

JACKSONVILLE, FLA., May 29. cial to the Times-Union from Palatka, Fig., says: The people of this section are very much excited over the discovery

about eight weeks ago a negro preacher by the name of Burgis came to the tur-pentine stills in the neighborhood of Putnam Hall and procured employment. After becoming acquainted with the colored employees, he made damaging re-marks about the laughter of a farmer living near by, and proposed to the ne-groes that they should seize the girl and several other white women and carry several other white women and carry them into the swamp, and maltreat them. It is understood that several negroes agreed to the plan, and that preparations were being made to carry it into effect. Fortunately, the white people got a hint of the conspiracy, and began to investi-

gate. They secured evidence that such a conspiracy did exist, and they took steps to guard their homes.

Meanwhile the negroes learned that their diabolical plan was known, and secretly they began to leave the country. One of those to leave was Burgls, who had suggested the crimes upon the women. He fied just in time to escape from a number of white men who had gone to secure him. It was learned that Burgis gone to Georgia, and the father of young lady whom Burgis had so wilely slandered swore out a warrant against the negro. The Georgia authori-ties were communicated with, and Burgia

Burgis was about 45 years of age. He confessed to Mr. Lane that the report he had circulated about the farmer's daughter was untrue, but that he had made the remark about her to interest the negroes in his diabolical undertaking. The white people are wild with rage, and it is believed that more lynchings will speedily follow.

CHESAPEAKE AND OHIO.

It Is to Parallel the Norfolk and Western in West Virginia.

BALTIMORE, May 29.-The Manufac turers' Record says the Chesapeake and Ohlo Railroad Company has decided to parallel the Norfolk and Western through Southern West Virginia and tap the finest coal seams and some of the best timber land in the world. The new line will be about one hundred miles in length, running from the mouth of Piney creek through the Valley of the Guyandotte to the mountains, and will reconnect with the main line of the Chesapeake and Ohio at Barboursville.

It was estimated by the State Geologist last year that there are in the country which would be controlled by the Chesapeake and Ohio with its new line not less than two billion tons of coal. This is not the only wealth in that region. It is all heavily timbered with hard woods, and when accessible the trees are worth \$400 per acre. The Chesapeake and Ohio already own more than 50,000 acres of land in Raleigh county, and are buying everything that is offered in the vicinity. Preliminary surveys have been made, and work on the new road will be begun this

A Lesson in Hyglene.

Now that water supplies are recognized as the chief vehicle for propagating typhoid-fever, medical and scientific authorities throughout the world are constantly dwelling on the necessity of using water of known purity. While this has no bearing on medicinal waters which, however, valuable, cannot safely be made part of the ordinary daily diet because of the active chemical substances they contain, it has, however, given a wonderful stimulus to the consumption, of dietetic or table waters, such as Apollinaris. It is little wonder, however, that the use of Apollinaris is on the increase, for who does not gladly take this beverage, which, besides being pure and healthful, is delightful and refreshing?—Exchange.

Mr. Caffery said he had met Mr. Havemeyer on two occasions, and had talked over the sugar question, but that their views were antagonistic, Mr. Caffery said he did not know of Mr. Havemeyer's mittee or any sub-committee. Mr. Caffery characterized the story that there schedule between the representatives of the Sugar Trust and members of the Finance Committee, at which he was
